CATALYST FOR CHANGE:

A Closer Look:

ECONOMIC DEVELOPMENT INVESTMENTS

Key Investments:

- Construct transportation and public facilities
- Land use and economic development policy updates
- Direct investment in companies through capital equipment acquisition grants
- Establish San Jose as a clean technology hub
- Park developments and flood protection

\$116 million invested in infrastructure in **South San Jose (Edenvale Technology Park)** over the past 20 years has **stimulated significant private investment** in over 13 million square feet of prime R&D, office, and manufacturing space, in which more than **300 companies generating over 13,500 jobs** operate.

Investment in infrastructure in the North San Jose industrial area (Rincon de Los Esteros), such as Route 87 improvements; flood control; the Brokaw Road - U.S. 101 undercrossing and new Tasman bridges serves more than 4,600 acres and is home to **1,400 national and international companies employing 66,000 people**.

\$10 million dollars in the **San Jose BioCenter**, a lifesciences incubator facility. The 36,000 square feet scientific research facility has attracted **\$1 billion in capital** and created more than **800 direct jobs**.

*Not including Julian-Stockton project area

Strengthen Neighborhoods

Key Investments:

- Build new parks, community centers, public art, libraries and schools
- Traffic calming and safety initiatives
- Housing rehabilitation loans and grants
- Street and pedestrian improvements
- Neighborhood beautification and clean-up
- Storefront improvement grant program

Implemented **neighborhood revitalization program to build clean, safe and attractive neighborhoods**. Redevelopment has invested \$103 million in 19 neighborhoods.

Support small business

Key Investments:

- Support, promote and market neighborhood-serving small businesses
- Improve storefronts and streetscapes
- Develop incentives for new housing and retail
- Create educational seminars for small businesses

\$284 million to revitalize neighborhood-serving commercial areas. The Agency supports business clusters and eight neighborhood business districts: West San Carlos, East Santa Clara, Story Road, Alum Rock, Japantown, Luna Park, The Alameda, and Winchester. Of the businesses located within the business districts, 95% percent are small businesses.

Build Public Facilities

Key Investments:

- Preserve historic landmarks and structures
- Support retail and business development
- Construct transportation and cultural facilities
- Build new parks, flood protection, community centers, public art and libraries

\$1.3 billion in building public facilities, infrastructure and improvements throughout San Jose's redevelopment project areas.

Since 1977, the Agency has invested nearly **\$2 billion to improve downtown** San Jose. Approximately **\$340 million for educational** programs, services and facilities in neighborhoods and downtown San Jose.
